trusted since 1906

# RUGGED, STABLE AND POWERFUL

Standard detailing wand for hard to reach areas

Nilfisk GD 930 is the reliable choice for demanding cleaning applications in hotels, schools, offices and hospitals. Rugged and stable, with a large dust bag capacity of 15 litres. The ingenious design optimises air flow patterns and reduces energy losses to an absolute minimum. The result is tremendous suction power with just a gentle humming background sound.

With the excellent HEPA filter filtration system it stops even the tiniest particles - animal hairs, dust mites or even smaller nuisance dust. All models include a lightweight aluminium tube as default accessory.

For even quieter operation in noise sensitive operations such as work hour cleaning in offices, or hospital ward vacuuming, the GD 930 S2 offers two-speed variation to cut the sound level to 49 dB(A).

The multi-layer filtration that is standard on all GD 930 units efficiently captures even microscopically small particles and prevents them from being exhausted back into the atmosphere.

- Wide working radius – 15 m cable
- Telescopic tube on S2 for extra comfort
- Sturdy steel container

## TECHNICAL SPECIFICATIONS

Description	Unit	GD 930	GD 930 S2
IP protection class		IP20	IP20
Rated power	W	1000	1000
Suction power end of tube	W	270	270
