

ISS Series

ISS1- Single Type

- Size Range : 100A ~ 150A
- Max Pressure : 15kg/cm²
- Max Speed : 600RPM
- Max Temperature : 180°C
- Media : Steam

Dryer 의 Bearing Cover 또는 Reducer(감속기) Cover에 Ring Bracket을 고정하여 편심없는 회전으로 고속 회전 최강의 동심도를 유지하고, 특수 가공된 Seal Ring 사용으로 사용 수명이 탁월합니다.
Seal Ring의 마모 상태를 외부에서 육안으로 측정 가능하며 부착된 Counter Pin의 거리를 측정하여 Seal Ring의 교체시기 판단이 가능합니다.

ISS Series is stable at high speed without eccentric rotation since it is assembled on a bearing cover or a reducer cover with ring bracket. It is being used with a seal ring made of special machined material. That gives ISS Series long durability.
Condensed fluid is drained excellently with stationary siphon.
Users can decide when seal ring is replaced by measuring a distance of counter pin.

ISS1- Single Type

MODEL	SIZE	A	B	C	D
ISS-100A	4"	175	194	185	148
ISS-125A	5"	210	228	220	178
ISS-150A	6"	240	244	228	240
